

Tech Group	Sub-Tech Group	Number	Title
Network	Wireless Technology	US6665269	Method and apparatus for filtering network traffic based on the correct channel in an IEEE 802.11(b) wireless lan
Network	Wireless Technology	US6438575	System, method, and article of manufacture for wireless enablement of the world wide web using a wireless gateway
Network	Wireless Technology	US6754488	System and method for detecting and locating access points in a wireless network
Network	Wireless Technology	US6674738	Decoding and detailed analysis of captured frames in an IEEE 802.11 wireless LAN
Network	Wireless Technology	US6693888	Method and apparatus for filtering that specifies the types of frames to be captured and to be displayed for an IEEE802.11 wireless LAN
Network	Network Hardware/Architecture	US6714513	Enterprise network analyzer agent system and method
Network	Network Hardware/Architecture	WO0215484A1	System and method for transferring a packet from a port controller to a switch fabric
Network	Network Hardware/Architecture	US6513122	Secure gateway for analyzing textual content to identify a harmful impact on computer systems with known vulnerabilities
Network	Network Processing	US6615262	Statistical gathering framework for extracting information from a network multi-layer stack
Network	Network Processing	US6751627	Method and apparatus to facilitate accessing data in network management protocol tables
Network	Network Processing	US6604139	Voice protocol filtering system and method
Network	Network Processing	US6728885	System and method for network access control using adaptive proxies
Network	Network Processing	US6608817	Method and apparatus for connection-oriented multiplexing and switching network analysis, management, and troubleshooting
Network	Network Processing	US6633835	Prioritized data capture, classification and filtering in a network monitoring environment
Network	Network Processing	US6499109	Method and apparatus for securing software distributed over a network
Network	Network Processing	US6707794	Method, system and computer program product for physical link layer handshake protocol analysis
Network	Network Processing	US6510448	System, method and computer program product for increasing the performance of a proxy server
Network	Network Processing	US6523023	Method system and computer program product for distributed internet information search and retrieval
Network	Business Methods/E-commerce	US6453347	Active marketing based on client computer configurations
Network	Business Methods/E-commerce	US6693236	User interface for simultaneous management of owned and unowned inventory
Network	Business Methods/E-commerce	US20010054008A1	System, method, and article of manufacture for selecting a vendor of user-defined products
Network	Business Methods/E-commerce	US6678887	Customizing business logic and data sources by modifying methods defined within an API
Network	Business Methods/E-commerce	US20010054024A1	System, method and computer program product for allowing a carrier to act as a credit-approval entity for e-commerce transactions
Network	Business Methods/E-commerce	US20020040324A1	System, method and computer program product for registering an unregistered vendor/product in a business-to-business network-based framework
Network	Business Methods/E-commerce	US20020013849A1	System, method and computer program product for policy-based billing in a network architecture
Display	Computer Graphics Processing	US6532013	System, method and article of manufacture for pixel shaders for programmable shading
Display	Computer Graphics Processing	US6600488	Tessellation system, method and computer program product with interior and surrounding meshes
Display	Computer Graphics Processing	US6734874	Graphics processing unit with transform module capable of handling scalars and vectors
Display	Computer Graphics Processing	US6650325	Method, apparatus and article of manufacture for boustrophedonic rasterization
Display	Computer Graphics Processing	US6738062	Displaced subdivision surface representation
Display	Computer Graphics Processing	US6353439	System, method and computer program product for a blending operation in a transform module of a computer graphics pipeline
Display	Computer Graphics Processing	US6480205	Method and apparatus for occlusion culling in graphics systems
Display	Computer Graphics Processing	US6504542	Method, apparatus and article of manufacture for area rasterization using sense points
Display	Computer Graphics Processing	US6452595	Integrated graphics processing unit with antialiasing
Display	Computer Graphics Processing	US6720975	Super-sampling and multi-sampling system and method for antialiasing

Tech Group	Sub-Tech Group	Number	Title
Display	Computer Graphics Processing	US6760032	Hardware-implemented cellular automata system and method
Display	Computer Graphics Processing	US6731298	System, method and article of manufacture for z-texture mapping
Display	Display Technology		
Display	Display Technology	US6489965	System, method and computer program product for altering saturation in a computer graphics pipeline
Display	Display Technology	US22000967A1	System and method for digitally controlled waveform drive methods for graphical displays
Display	Display Technology	US20010043177A1	System and method for color and grayscale drive methods for graphical displays utilizing analog controlled waveforms
Display	Display Technology	US20020000994A1	System and method for superframe dithering in a liquid crystal display
Display	Multimedia and Graphical Interfaces	US06326988	Method, apparatus and article of manufacture for displaying content in a multi-dimensional topic space
Display	Multimedia and Graphical Interfaces	US6583782	Virtual force feedback interface
Display	Multimedia and Graphical Interfaces	US6505209	Poly vectoral reverse navigation
Display	Multimedia and Graphical Interfaces	US6326988	Method, apparatus and article of manufacture for displaying content in a multi-dimensional topic space
Display	Multimedia and Graphical Interfaces	US6728219	Graphical user interface system and method for visually gauging network performance
Display	Multimedia and Graphical Interfaces	US6393158	Method and storage device for expanding and contracting continuous play media seamlessly
Display	Multimedia and Graphical Interfaces	US6633903	Method and article of manufacture for seamless integrated searching
Display	Multimedia and Graphical Interfaces	US20030120762	System, method and computer program product for pattern replay using state recognition
Display	Multimedia and Graphical Interfaces	US6693236	User interface for simultaneous management of owned and unowned inventory
Computer	Semiconductor Processing	US06410210	Semiconductor blocking layer for preventing UV radiation damage to MOS gate oxides
Computer	Semiconductor Processing	US20040027715A1	Method for producing multiple magnetic layers of materials with known thickness and composition using a one-step electrodeposition process
Computer	Semiconductor Processing	US6628484	Planar gap pre-fill process for read heads
Computer	Semiconductor Processing	US6696226	Simultaneous definition and direct transfer of a write head pole and coil for a magnetic read/write head
Computer	Semiconductor Processing	US6760198	Magnetic multilayered films with reduced magnetostriction
Computer	Computer Hardware	US6754021	Shock resistant, high reliability rotating magnetic storage device
Computer	Computer Hardware	US6738863	Method for rebuilding meta-data in a data storage system and a data storage system
Computer	Computer Hardware	US6751718	Method, system and computer program product for using an instantaneous memory deficit metric to detect and reduce excess paging operations in a computer system
Computer	Computer Hardware	US6745311	Method of allocating clusters of computer readable medium to a file while minimizing fragmentation of the computer readable medium
Computer	Computer Hardware	US6677953	Hardware viewport system and method for use in a graphics pipeline
Computer	Computer Software	US6587888	Dynamic software wrapper
Computer	Computer Software	US6671368	Service desk system for allowing easily changeable associations for data retrieval and display
Computer	Computer Software	US6584504	Method and apparatus for monitoring internet traffic on an internet web page
Computer	Computer Software	US6671812	Computer cleaning system, method and computer program product
Computer	Computer Software	US6633680	System, method and computer program product for small-font compression
Computer	Computer Software	US6732157	Comprehensive anti-spam system, method, and computer program product for filtering unwanted e-mail messages
Computer	Computer Software	US6735629	Method and apparatus for real-time protocol analysis using an active and adaptive auto-throttling CPU allocation front end process
Computer	Computer Software	US6460038	System, method, and article of manufacture for delivering information to a user through programmable network bookmarks
Computer	Computer Software	US6446186	Method, apparatus and article of manufacture for mapping physical memory in a virtual address system

Tech Group	Sub-Tech Group	Number	Title
Computer	Computer Software	US6763403	Graphical user interface system and method for automatically updating software products on a client computer system
Computer	Digital/Analog Circuits	US6647456	High bandwidth-low latency memory controller
Computer	Digital/Analog Circuits	US6374279	System and method for increasing dual FIR filter efficiency
Computer	Digital/Analog Circuits	US20030128450A1	CMOS low-noise MR read head pre-amplifier circuit
Computer	Digital/Analog Circuits	US6198488	Transform, lighting and rasterization system embodied on a single semiconductor platform
Computer	Digital/Analog Circuits	US24015502A1	Application program interface for programmable architecture cores
Computer	Digital/Analog Circuits	US22010825A1	Memory resource arbitrator for multiple gate arrays
Computer	Digital/Analog Circuits	US6515671	Method, apparatus and article of manufacture for a vertex attribute buffer in a graphics processor
Miscellaneous	Chemical	US6722593	Method and apparatus for recovering an elastomeric material
Miscellaneous	Chemical	US6667457	System and method for a sacrificial anode in a kerf for corrosion protection during slider fabrication
Miscellaneous	Chemical	US06989101	Microorganism-removing filter medium having high isoelectric material and low melt index binder
Miscellaneous	Chemical	US25005869A1	Composite Absorbent Particles
Miscellaneous	Chemical	US25130078A1	Plating Using Copolymer
Miscellaneous	Chemical	US25242041A1	Silver Impregnated, Alumina Coated Materials and Filtration Systems Implementing Same
Miscellaneous	Mechanical	US6700733	Tape system with adjustable wrap angles and method for adjusting tape wrap angle
Miscellaneous	Mechanical	US06231459	Golf ball with textual instructions positioned thereon
Miscellaneous	Mechanical	US06240864	Transparent template for facilitating embroidery alignment using a support frame of a sewing machine
Miscellaneous	Electro-Mechanical	US05775469	Electrodynamic strut with associated bracing mechanism
Miscellaneous	Electro-Mechanical	US6600184	System and method for improving magnetic tunnel junction sensor magnetoresistance
Miscellaneous	Electro-Mechanical	US20040036471A1	Integrated Field Generator for Actuating Magnetic Heads
